TESTING

## **Cladding Flammability, Sampling and Analysis Better Safeguard your Building in Faster Timeframes**

At CLADDINGTEST we don't just provide you with a laboratory analysis of the cladding material. We give risk categorisation and increased data on the cladding's composition which allows you to improve your risk assessment, your reports and better safeguard the building in question.

Insurance Council of Australia (ICA) Approved

CLADDINGTEST were one of the first commercial providers to be approved by the ICA to analyse and report on combustible cladding.

As preferred suppliers to VBA and State Government you can feel confident in the reports.

### **Combustible Building Cladding Testing**

Sampling and Testing of Aluminium Composite panels or cladding materials for flammability, composition, toxicity and flammability potential.

<https://www.excelplas.com/products-tested/cladding-testing/>

Cladding Flammability, Sampling and Analysis – CLADDINGTEST LABS

Sampling and Testing of Aluminium Composite Panels (ACP) or cladding materials for flammability, composition, toxicity and flammability potential.

Fastest Timeframes in the Industry: CLADDINGTEST takes as little as 2-5 business days from job initiation to handing over your final report.

In an industry where the usual turnaround is 2 weeks onwards, CladdingTest's fully-equipped in-house laboratory and operational flexibility enable us to shorten our reporting timeframes allowing you to meet your cladding risk assessment deadlines early.

---

**Roscon is a specialist provider of property reporting and facilities management services to business in the Owners Corporation and Insurance industries**

As expert consultants, Roscon can devise a solution to address any non-compliant claddings. These solutions may be far more

cost effective than replacing the entire building facade.
